Hello!

I'm a software engineer living in the KC area. Interested in software design and implementation. Skilled in multiple languages and experienced in both front-end and back-end development.

Kansas City Women in Technology

Mentor | 2019+

Guided first-time coders of all ages through basic programming exercises.

Netsmart

Software Engineer | 2018+

Worked on an agile development team with daily scrum meetings. Designed and built an application from the ground up. Created user-friendly documentation. Presented work to executives and entire company.

Netsmart

Software Engineering Intern | 2017

Worked on an agile development team with daily scrum meetings. Designed and built an application from the ground up. Created user-friendly documentation. Presented work to executives and entire company.

University of Kansas

B.S. in Computer Science | 2015-2018
